Subject Selections: Year 10, 2009

Student Instructions:
1. Circle one subject on each line for each semester in the Year 10 grid.
2. Begin with the subjects that appear only once for the year (shown in **bold and green**).
3. Continue with the subjects that appear on only one line in each semester (shown in **bold and red**).
4. If you intending to take a subject that is a two-unit sequence (e.g. English, Maths, Fitness Studies, a LOTE), it must be on the same line in Semester Two as it was in Semester One.
5. If you are applying to take a VCE subject (Units 1 & 2), find its code in the *Year 11 subject grid* (below the Year 10 grid) and check that it is not in the same lines as any of your Year 10 choices. Indicate on the Year 10 grid that you have selected a Year 11 subject by leaving that line blank and putting a cross (X) at the end of the line.
6. If you are choosing a VET course, circle VET in Semester Two, Line 4 and then circle the VET course you wish to be enrolled in from the list below:

    | Automotive Technology | Hospitality Operations | Engineering Technology |
    | Horticulture          | General Construction   |                      |
