YEAR 8 Overnight @ Santa

Teachers attending: Yr 8 Homeroom and subject teachers.

Dates:
Term 1
8H Leave on 25th March and return on 26th March

Term 2
8C leave on 13th May and return 14th May
8D leave on 13th May and return 14th May
8J leave on 14th May and return 15th May

8E leave on 20th May and return 21st May
8F leave on 20th May and return 21st May
8A leave on 21st May and return 22nd May

8G leave on 24th June and return 25th June
8B leave on 25th June and return 26th June

Location: St Bernard’s Santa Monica Campus
760 Great Ocean Road, Victoria.

Emergency numbers:
Santa Monica contact number: 5289 7101
During school hours:
SBC Administration: 9289 1000
Year 8 Coordinators:
Mr Brian Hall 9289 1144
Mr David Waters 9289 1135

After school hours:
Deputy Principal Damian McKee 0439632693

Transport
Travelling by bus departing SBC at: 8:00am
(Please arrive at the Pavilion by 7:45am)
Departing Santa Monica at approx. 1-1:15pm
Arrive back at SBC at approx. 3:30 pm

Distance from expert medical care
10km to Lorne Hospital/ambulance assistance/7km to Aireys Inlet Medical Centre
OVERVIEW

St Bernard’s College strives to be a leading school that offers its boys an innovative, broadly based educational experience. Our philosophy is built on the foundation of Christian values and aims to develop each boy’s individual abilities, equipping them with the skills necessary to be successful, productive and responsible members of society.

Our school motto attests ‘Discere et Agere – to learn & to do.

We want to provide our Year 8 boys an opportunity to enjoy time out from the Essendon Campus, but also a chance to appreciate all the learning that can be experienced away from the classroom.

This program of outdoor education available to Year 8 students at St Bernard’s College supports the vision and aims of the College. It will enable personal growth and challenges as well as a chance to forge independence, new friendships, create great memories and most importantly, prepare the boys for their Year 9 Santa Monica experience in 2013.

YEAR 8 @ Santa

The aim of Outdoor Education is to gain better results and outcomes than can be achieved through traditional forms of teaching. By removing the individual from their usual knowledge and comfortable environment alternative learning can be achieved.

All aspects of this program are tailored towards the Year 8 Curriculum of Science, Humanities, English and Art. There are also some activities to encourage initiative and further their personal growth.

There are inherent risks in undertaking some outdoor adventure based activities however facilitators are of the belief that the risks attributed to the activity is greatly outweighed by the outcomes, which can be achieved for the group and individual.
EXPECTATIONS

Students
Students are expected to adhere to the College Code of Conduct. The College has high expectations of the conduct of boys whilst off campus representing the College.

Students are expected to:

○ Follow all directions and respect the position of teachers and supervisors in charge of the group.

○ Act responsibly at all times whether with the entire group or separated from supervision.

○ Follow all regulations and codes specified by the camp facilitators.

○ Remain inside the camp boundaries.

○ Be respectful, courteous and just towards others and respect property.

○ Communicate openly and seek to build and maintain positive relationships with their peers and supervising staff.

○ Make the most of the educational opportunities offered by this educational experience.

PERSONAL EXPECTATIONS for the students:
• Ensure your belongings are all clearly labelled.
• Be responsible for your belongings.
• Do not bring valuables including iPODS, phones, etc and such items brought will be confiscated. (There is little if any phone reception at Santa Monica.)
• Do not bring snacks for the bus – no eating is allowed on the bus. There is ample food supplied by Santa Monica staff.
• If you require medication, ensure you include this on your information sheet and bring the medication with you.
• Use a plastic bag to store away any wet clothing.
• Help to clean the accommodation and account for any lost property.
• Assist others where you can to ensure a prompt departure.
• Thank the camp facilitators as to your positive experiences while on camp.

EXPECTATIONS upon return to SBC:

• Students should take the time to personally thank the accompanying staff and return any medication to reception that usually stays at the College.
• Students can seek other opportunities to support their learning outside the classroom.
• Parents can help their son reflect on their experience at Santa Monica and offer him an opportunity to share and build on his positive experiences.
• Homeroom and subject staff can build upon this experience to support their classroom curriculum.
ACTIVITIES for Year 8 @ Santa Monica

An important part of any school trip is that all activities are subject to weather conditions. Student safety is important and changes in daily itineraries will be at the discretion of the teacher involved.

Science @ Point Addis – Geology with Eco-Logic (www.ecologic.net.au)

Based in Anglesea on the Surf Coast, Eco-Logic Education & Environment offer opportunities for hands on, student-centred learning whilst encouraging a stronger sense of stewardship and responsibility for the preservation and management of our natural environment.

In Science Year 8 are currently studying GEOLOGY. Working with Eco-Logic will inform and consolidate their curriculum. Eco-logic will meet each Year 8 homeroom at low tide to investigate the Surf Coast wall and identify fossil remains and analyse different rock types. In most cases, the Year 8 Science Teacher will also be present to assist the boys in their learning and transition back to the Science classroom.

Humanities

Students will look at the potential fire dangers in and around Santa Monica. They will watch a documentary about the firestorms on Black Saturday and then using maps of the site, in small groups construct what they believe to be an effective emergency fire plan for the camp.

The boys will then have the opportunity to compare this to the actual emergency plan at Santa Monica and discuss what's most important during a fire emergency.

Team Games and Activities

Team games and initiative activities have various risks often involving lifting people or being lifted, passing, throwing or catching objects, running, jumping, hopping, swinging on ropes and other risks which may present itself during the activity. Students will assess their personal contribution to each activity in line with their skills, strengths and weaknesses and any physical disabilities or previous injuries.

Art – landscape sketching

In Art, Year 8 boys learn how to draw a landscape or incorporate the landscape into their drawing. Whilst at Santa Monica, boys will have an opportunity to explore a number of materials and processes in the scenic surrounds of the beach or on the campgrounds using pencil and a range of materials. They will practise the skills of rendering and freehand observational drawing which will help their rendering skills for folio assessment.

English – Literacy

In Year 8 English at St Bernard’s College, students have a fortnightly private reading period in the library as well as participate in a Literature Circles unit, where students read a novel in small groups and analyse its themes with a view to presenting their findings orally.

Being at Santa Monica provides our Year 8s with the opportunity to read away from home and the formal school setting. Your son will spend some time privately reading in the solitude of the surrounds, either their Literature Circles text or a novel that they are reading at that time; a rare experience for some whilst for others, a continuation of an established habit.
EQUIPMENT CHECKLIST AND PACKING LIST

Although parents will assist their sons in packing the most appropriate equipment for the weather and time of year it is expected that students be responsible for packing their own equipment. Please ensure students use one storage bag of an appropriate size for them to carry, as they will have to carry it themselves once they reach the site. **All items should be clearly labelled so misplaced items can be promptly returned.**

Please note items such as iPods, MP3 players, mobile phones, radios, digital cameras, spending money, aerosols, chewing gum, lollies and GPS units are **NOT** to be taken on camp. **SBC does not accept any liability for loss of personal items.**

</tbody>
</table>

Please ensure all items are clearly marked with your son’s name. No valuables please.
ACCOMMODATION
Accommodation at Santa Monica is in bunk-style cabins or dormitory.

CATERING
Santa Monica offers a wide and comprehensive menu each day. Students who have specific dietary requirements can be catered for and should specify their requirements on the medical, dietary and permission forms.

RISK ASSESSMENT
Operating procedures and risk management assessments for the activities to be undertaken whilst on the camp have been provided to the school and accompanying staff. All activities have risks, participants (students) and parents must be aware that these risks exist and that they must be willing to accept that such risks are an aspect of participation in the listed activities.

Teachers will brief the students on any other risks involved (e.g. safe bus travel) in preparation for the camp. If you have any concerns, please see your son’s classroom teacher in the first instance.

At Santa Monica, the staff use systems, equipment and site checks, instructor training and risk management protocols to minimise the possibility of incidents or accidents occurring. Good footwear, care and observation, being prepared, listening and following instructions on the part of the student will also help to minimise the risk of incident and accidents from occurring.
